

## Shujiang Kang

**Postdoctoral Research Associate**

**Ecosystem Science Simulation Group**

**Climate Change Science Institute**

**Oak Ridge National Laboratory**

Shujiang Kang is a postdoctoral research fellow for the Ecosystem Simulation Science group (Great Lakes Bioenergy Research Center) at ORNL. His responsibilities include using modeling and assessment tools to evaluate the environmental quality, sustainability, and ecosystem service due to land-use change associated with bioenergy production. He received his PhD in soil science from Pennsylvania State University in 2006.

Before joining ORNL, Kang worked for several projects on soil environmental quality assessment, soil carbon sequestration modeling, and agricultural greenhouse gas emission in the Department of Agriculture (USDA)-Natural Resources Conservation Service and the USDA-Agricultural Research Service. He is a member of the American Society of Agronomy, the Soil Science Society of America, and the American Geophysical Union.
